

Where Local Good Grows

Hendricks County Community Foundation

There are many things about HCCF that make me proud: our effective grantmaking, generous donors, important partnerships, dedicated volunteers, knowledgeable professional staff, and our role as a community leader. The last is especially important because it allows us to address key issues in our community. One recent activity led to us addressing a key issue that we've identified as a challenge. That issue was our scholarship application process for the [Lilly Endowment Community Scholarship](#).

It had reasonable criteria, was accessible and open to all high school seniors. The problem was in the results: our recipients over the 25 years did not reflect our community, both in lack of men and students of color. So HCCF put together a task force made up of Board members, scholarship recipients, county high school and higher education representatives, and other community stakeholders. Led by HCCF's Vice President of Programs Eric Hessel and Community Inclusion & Engagement Manager Bryan Chatfield, the task force did a deep dive over four months into our application process and the best practices from the field to develop a recommendation for our Board. I was able to sit in on a couple of the meetings and found them to be among the most thoughtful and engaging conversations in my 11 years with HCCF.

The changes to the criteria and application have been approved by the HCCF Board, and Independent Colleges of Indiana, which oversees the program for Lilly Endowment. You can read more about the changes below, but our hope is that more of our high school seniors will apply for this important scholarship. And I know that HCCF will continue to lead on important issues in our community.

What book are you reading right now or have recently read? Dave Grohl's biography: The Storyteller

What is one thing still on your bucket list? A trip to Iceland and Greenland

if you could have dinner with someone from the past, who would it be? Henry Ford

What do you love most about our community? One thing I love about our community is that you get out of it what you put into it. Folks here are welcoming and appreciate those who engage and strive to make a positive impact.

What is one need identified in HCCF's countywide assessment that we are addressing? How can we continue to improve? It has been a transformative experience working with the Arts Council, Hendricks Live!, Leadership Hendricks County groups and the Community Foundation on a diverse set of arts and cultural experiences over the past few years; especially in creating our mural space at ASH Interactive. I truly see our community rallying in a powerful way.

Why do you do what you do? Prior to launching ASH Interactive I worked as an educator, an arts administrator, and also had associated side businesses. My heart belongs in service to non-profits and small businesses. I feel that the advancement of the internet, social media, ease of content creation and to an extent AI, have been great equalizers in terms of allowing organizations to share their stories and engage with the world. I want to be used to empower the messages of people and organizations that are
