

Where Local Good Grows

Hendricks County Community Foundation

February is a great month for your Community Foundation. We're far enough into 2023 that our plans for the year are starting to hit their stride. And February is a big grantmaking month here at HCCF, and that's always exciting!

In February, we award grants from all our permanent, endowed Designated Funds. [Designated Funds](#) are those that donors create to support a specific nonprofit organization forever. It's a way to turn one's monthly or annual giving to a nonprofit into forever giving. So HCCF sends checks – **over \$300,000 in 2023** – to support those nonprofits and their work in our community. Our donors have started funds to support a wide range of community organizations, ranging from libraries, schools and churches, to our youth and social service organizations.

One of our newest Designated funds is the Willard Lydick Memorial Vocation Agricultural Education Fund. This fund was started by his family to honor the late Mr. Lydick and to provide support to the Future Farmers of America (FFA) Program in Mill Creek Schools with a preference for students facing financial barriers to participation. HCCF is making a grant from this fund this month to Cascade High School. When the Agriculture Educator at Cascade was notified, she stated, "That is great, thank you! We often have students who aren't sure about signing up because of the fee associated with membership." That's a perfect expression of our donors' intent matching a need in the community!

If you could support an organization or program in our community forever, what would it be? How would you honor your passion, or the passion of one of your loved ones? Would you like to learn about creative ways to leverage your gifts? [Contact me today!](#)

In the meantime, I am so thankful for the generous folks who created our Designated Funds, and for the local nonprofits doing such important work in our community.

Yours in Philanthropy,

HCCF, Duke Energy, Abstract & Title and the four county Chambers of Commerce sponsored a presentation and conversation this month with the MIBOR Realtor® Association to discuss Hendricks County's increasing population, the need for attainable housing for all income earners, connecting housing to workforce recruitment and retention strategies, and growing the placemaking and quality of life amenities of our county. New Nonprofit Census

HCCF is currently conducting a census of all the nonprofits serving Hendricks County. The goal for this census is to ensure all nonprofits serving Hendricks County have equal access to our programming and for us to better understand the diversity of these organizations. It's our hope that through this census we can increase the impact of our Diversity, Equity and Inclusion (DEI) initiatives.

The results of this survey will be used to:

- Add new or new-to-us organizations to our database
- Update our records of nonprofits in our database
- Better understand the demographics of organizations serving Hendricks County
- Expand our reach to all the nonprofits in our community.

Community Connections

HCCF is committed to building community unity and creating a welcoming community for all our residents. Every month we are spotlighting community leaders who help make Hendricks County a great place to live, work and play.

This month we are highlighting **Becky Brownfield**, Business & Operations Manager at [Hendricks County Senior Services](#).

What is your favorite movie? Cinderella - Who wouldn't want animals to help them get their work done?

If you could be a superhero for a day, who would you be? Wonder Woman - Flying would be very handy, I could communicate with animals and the lasso of truth means I would get the straight story.

What book are you reading right now or have recently read? Atlas of the Heart - Brene Brown

If you could have dinner with someone from the past, who would it be? Abraham Lincoln - he had such a belief that everyone deserved equal treatment.

What piece of advice would you give your younger self? Worry less about what others think.

What is one need identified in HCCF's countywide assessment that we are addressing? How can we continue to improve? The county has improved on having concerts and festivals at the parks and art exhibits at some of the libraries. I would love to see the community and organizations like the Chambers put more effort into attracting businesses that focus on teens and families.

What do you love most about our community? Our parks and trails. There are wonderful walking paths and green space throughout Hendricks County.
