

Where Local Good Grows

Hendricks County Community Foundation

In 2019, your Community Foundation completed our 2019 Needs Assessment at the beginning of our Community Unity work. This large project, encouraged and partially funded by Lilly Endowment Inc., surveyed our community to understand what you and our other neighbors saw as the most important assets and challenges in Hendricks County. The project took six months to complete and included responses from over 3,000 individuals, giving the survey a statistical 99% confidence with a 2% margin of error. That's a high rate of confidence and means the results safely could be applied to our community as a whole.

We planned to repeat the survey over the next decade to see what changes in these issues have occurred. I was surprised at the beginning of this year to realize that 2022 is the year for our first refresh of the survey results. So much has seemed to change in our community, nation and world since we completed the first Needs Assessment. But how have the needs changed? That's why we're doing the survey again!

Make your voice heard! The survey will officially be open August 1 to September 2, but we'd like to offer you the chance to get your response in today! Follow [this link](#) to complete the survey, which will take five or six minutes. Please also share the survey on social media and with your friends and neighbors. We want to hear from as many folks in Hendricks County as possible!

We'll be revealing the survey results before the end of the year, and engaging the community in additional discussions between now and then. But please complete your survey today!

Yours in Philanthropy,

1, 2022. Approximately \$1.5 million will be available through the three-year competitive grants, \$500,000 each year. Learn more and apply [here](#).

Community Connections

HCCF is committed to building community unity and creating a welcoming community for all our residents. Every month we are spotlighting community leaders who help make Hendricks County a great place to live, work and play.

This month we are highlighting **Lael Hill**, Executive Director of [Mental Health America of Hendricks County](#).

If you could be a superhero for a day, who would you be? Wasp!

What is something still on your bucket list? Doing one pull-up!

What brings you happiness? Family and Friends

What do you love most about our community? How caring community citizens are. When a tragedy impacts one person, the entire community steps in to help a person or family in need. Its a blessing to us all.

What is one need identified in HCCF's countywide assessment that we are addressing? How can we continue to improve?

Lack of affordable housing: We could create fact sheets and lobby local public policy officials to help them understand the need for approved zoning to help our citizens who have an addiction or are facing homelessness. There are misconceptions about homelessness and addiction and we need to do better at addressing them.

Why do you do what you do? I have a strong sense of justice that fuels my passion to help our county's most vulnerable. Because I was once vulnerable too.
